this 1970 Cessna 150 private plane and flying lessons, or EMPI "Imp" dune buggy, or Starcraft 15-foot power boat.

## We're giving away all three in Revell's "Pick-Your-Own-Prize" Sweepstakes!

These aren't Revell models, gang—they're the real thing. Which go-go machine looks groovy to you?

Think about it, then write "Cessna 150" or "EMPI Imp dune buggy" or "Starcraft 15" power boat" on an official Revell entry blank. Or on the back of an end panel (or reasonable facsimile) from any Revell kit. Your name automatically goes into the special drawing for that particular prize. "Pick-Your-Own-Prize" Sweepstakes is actually three great sweeps in one.

**1,059 other wild prizes, including Yamahas and space suits.** Four lucky guys will win high-powered Yamaha 100cc motorcycles. Wild. And five of you will get real astronaut space suits worn by stars of "Marooned," the exciting new Frankovich-Sturges film production for Columbia. Wow. Five hundred of you will win six-packs of Revell kits and 300 will divvy up Apollo space

kits. And 250 will get two reserved-seat tickets to "Marooned."

**Really easy to enter.** Just send us your name, address and first-prize selection (plane, boat or dune buggy) on the back of an end panel from any Revell kit; or make a copy of the panel on a 3-by-5-inch piece of paper, printing the word "Revell" in block letters. Or go to your Revell dealer—he has a free, official entry blank for you. New Revell kits have them, too. You can even send us your name and address on a stamped, self-addressed envelope, and we'll send you an entry blank. If your blank has a secret message on it, you become an Instant Winner of a special mystery prize—and you're still eligible to win any of the other prizes, including one of the top three.

**Enter our "Pick-Your-Own-Prize" Sweepstakes now and enter often.** Your chances of winning get better each time.

Contest closes May 30, 1970. Winners will be selected after August 1, 1970. All entries become the property of Revell, Inc., and none can be acknowledged or returned. No purchase necessary to participate. Judges' decision final. Sweepstakes subject to local, state and federal laws and void wherever prohibited. Tax liability is responsibility

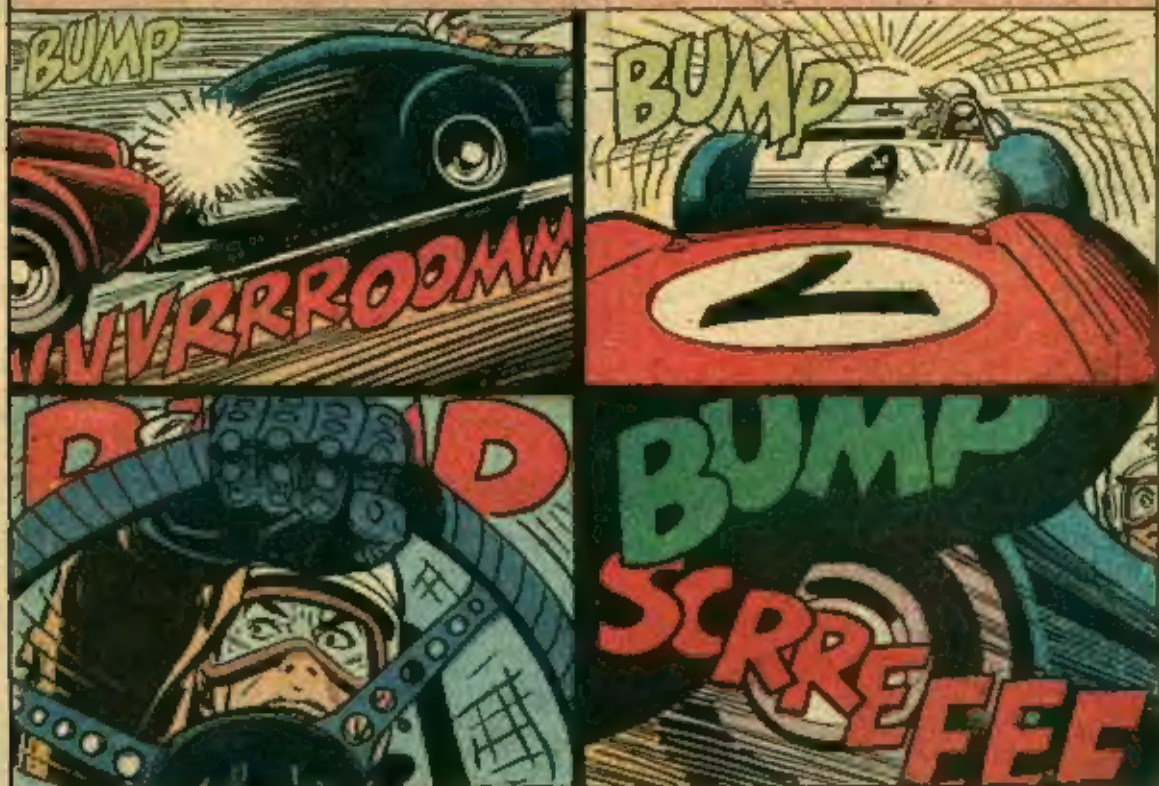

of winners. No substitute prizes will be given nor will cash equivalents be paid. In accepting awards, winners grant Revell the right to publicize and promote their winning of awards. Revell employees, employees of Revell distributors, dealers or their immediate families are ineligible.

- ★ Would you like a hot new car for your Aurora Model Motoring set?
- ★ Or a new fun car?
- ★ It doesn't matter. Aurora has both kinds.
- ★ See them at your Model Motoring store.
- ★ And drive the most talked about cars in years.
- ★ For new Model Motoring enjoyment.

### ★ Chaparral 2F.

Leader at LeMans, Nurenberg-ring, and Targa Florio. The stunning white Chaparral 2F led the American invasion of European race tracks last year. Best known for "bringing the wing to Europe." It tops the list of most-wanted Model Motoring cars.

### ★ Alfa Romeo 33.

This stylish speedster took on the world at Sebring. And led the pack through the first laps with only a two-litre V-8. Its different rear-deck air scoop and super-sleek lines make it easy to spot. In blood red, it's an exciting addition to every Model Motoring collection.

### ★ El Camio.

It's the groovy new favorite of California's beach set. Over half the surfers have made the switch already. And Aurora's right with them. Why not be, too?

# AN ARGUMENT BETWEEN FRIENDS G-430

"Mmmmm. I think Hot Wheels are groovy!" Janet Martin exclaimed, smoothing her distinctive minidress over her hips.

Ardeth glanced disdainfully at Jan's spotless attire. Her own outfit hung a little on her bony frame and already she had a smudge of lube oil on the shoulder. Ardeth looked around the space. Big Mike Wheeler had set aside for Hot Wheels in back of Wheeler Motors. Tank's Vette was off to the side where Tank was installing a Mallory Ignition and Mickey's Mustang was disassembled nearby. Of them all, only Jan never ripped her car apart to make a needed repair or just to look lovingly at the functional beauty of a car's innards.

"Jan, why do you even bother coming to the Hot Wheels meetings?" Ardeth asked in exasperation. "The club is for kids who are interested in engine performance and racing, not for standing around and looking pretty."

Mickey was wiping his hands nearby and listening.

"Don't knock it unless you've tried it, Ardeth!" he laughed. "Actually, Hot Wheels is oriented toward tuning cars and racing them."

Tank slid into view from beneath his jacked-up Vette.

"Hold on, homie!" Tank rumbled. "I'm for Jan, cars like the rest of yuh but don't forget the safety campaign we're taking part in at school. Pop Warren, our automotive shop teacher at school, says Hot Wheels have done more to get across the Safe Driving message than anyone else."

Listening quietly as usual, Kip, their friend who'd come to them from India via Oxford and his father's diplomatic mission to the U.S., added his dissenting view.

"As your most recent addition, I perhaps have observed the activities of Hot Wheels more objectively than any of you," he said in his flawless Oxonian English. "I believe Hot Wheels devote more time and effort to service than any similar group."

Jan flashed him a smile.

"You're right, Kip," she agreed. "My father is Police Commissioner and he says we've helped more motorists in distress than most members of his Police Force."

Kip nodded.

"Individual assistance to other motorists is included of course," Kip noted, "but Hot Wheels has also aided the community on a broader basis. Not long ago, Jack learned of the breakdown of the Civil Defense truck transporting the refrigerated container of vaccine. He reached it more quickly in his dune buggy than any other vehicle could've and the vaccine was not lost in the desert heat."

Tank was on his feet now, nodding.

"In the big storm last month, we patrolled for sand

hazards and guarded high-tension wires that had fallen into the road.

Just then there was the sound of a powerful engine as it was gunned, then shut off just outside Wheeler Motors. They waited and Jack Wheeler came through the door.

"I'm glad you're here, Jack," Jan said as he joined them. "I happened to say I loved being in Hot Wheels because it's so groovy with all the marvy scenes we make and Ardeth jumped me about it, then Tank, Mickey, and Kip got all uptight!"

"I say we're interested mostly in performance and Mickey agrees with me!" Ardeth offered.

"Safety comes before performance," Tank growled.

Kip smiled. "You underestimate yourselves, I believe Hot Wheels are a definite asset to community service."

Jack held up his hands as each of them started to advance further arguments to support his position.

"Hold it!" he said firmly. "I just had an experience that might settle the argument. I was on the highway an hour ago when a car overtook me going well over the speed limit."

He looked around and went on. "I gave him room thinking he was a stupid speeder but as he went by I noticed a bubble on his right front wheel, the kind I've noticed just before a tire blows out. If it blew at high speed, someone might easily be killed."

"I went after him," caught him a half mile further on with my speedometer reading ninety. I blew my horn, then forced him off the road. The driver jumped out a man in his twenties, and he was ready to punch me out! Then I saw the girl with him. She was in pain, almost ready to have a baby right there."

"What did you do, Jack?" Ardeth asked anxiously.

"Put them both in my car," Jack replied. "Drove as fast as I safely could till I saw a Highway Patrolman, pulled alongside and told him we needed a police escort and delivered the girl to the hospital."

"Were you in time, buddy?" Tank said.

"Yes, and she gave birth to a baby girl," Jack told them.

"As I said... that was groovy!" Janet commented.

"Jack's car had the pizzazz to catch that car and save their lives. It was performance!" Mickey snapped and Ardeth agreed.

Tank chuckled. "The important element was safety!"

Kip looked haughtily at them. "Obviously service oriented as I indicated."

Jack grinned at them.

"To sum it up, kids," Jack said summarily. "Hot Wheels are for Safety, Service, and Performance and I move we adjourn to Mother O'Hares for a couple of big burgers and a shake!"

# MONSTER S-I-Z-E MONSTERS

**7 FEET  
TALL**

**In Authentic Colors With  
GLOW in the DARK EYES**

**ONLY \$1.00  
TEN DAY FREE TRIAL**

Just imagine your friends' shock when they walk into your room and see the "Monster" reaching out—bigger than life—Frankenstein, the original man-made monster, the creation of evil genius that terrorized the world. A giant 7 feet tall, his eyes glow eerily as his hand reaches out—as awful and sinister as the wildest nightmare. Yes—Frankenstein is 7 feet tall, in authentic colors on durable polyethylene, and so lifelike you'll probably find yourself talking to him. Won't you be surprised if he answers? Comes complete with eyes that glow even in the pitch dark for a special thrilling chill.

**Wacky the Skeleton.** And then there is Boney—start scary with nothing left but his bare bones. A 7 foot monster out of the grave—his bones white, his eyes staring—even glowing in the dark.

**Money Back Guarantee.**

Just send \$1.00 plus 25c to cover postage and handling for each monster you want. Your money back if not satisfactorily horrified.

## Sea Horse 'Ranch' ONLY \$2.98

Adults and children alike gasp and laugh with delight when they see these wonderful and unusual pets from the sea. These curious creatures with heads like little horses, are unlike any fish. They swim and move through the water without any apparent effort. They hitch themselves by their tails to anything they can grab including each other. When you look at

them, they look back at you. They sail around, they feed themselves, they turn summersaults and "stand on their heads." The female lays the eggs in the male's pouch and he hatches them. The baby sea ponies come out alive ready to swim.

### MOVIE AND HOURS OF PLEASURE

You'll get hours and hours of pleasure setting up your Sea Horse Ranch and watching in fascination how these curious fish—like nothing else in the world—swim, play, feed, hatch their young.
